

Winter readiness sample

A practical preview of the SEAX Winter Fleet Safety Kit

Sample for evaluation. This is not a complete program or a statutory inspection report. The full editable kit contains a policy, six talks and reusable records.

Start the winter conversation

- Who can delay a trip when conditions are unsafe?
- Where can a driver stop safely on the route?
- Who checks that winter equipment issues are resolved?
- What happens if a check-in is missed?

Sample seasonal preparation checklist

Review item	Owner	Due
Approve winter operating responsibilities		
Confirm equipment-specific maintenance needs		
Check lights, wipers, defrosting and safe access		
Prepare emergency supplies and contacts		
Choose the first safety-talk date		

One action for this week
